 Notes: 1. These data now also include commodities produced for other than human food consumption e.g. wool, skins, seeds, grain feed, sardines etc.
 2. The price per unit for seeds represents an average price for all seed varieties.
 3. Discrepancies may exist with other related publications of these data that exclude products not for human consumption.
 4. Data for some commodities are unable to be published for reasons of commercial confidentiality or unavailability. These are flagged with NO DATA.
